

Divisible stand

062.8045 Fully divisible stand (Light Series) incl. bracket max. VESA 600x400

The SmartMetals fully divisible stand is particularly suitable for rental applications. Due to the stand being divided in 4 parts: the base plate, the column in two parts of 95cm and the VESA bracket, the stand and the screen can be transported compact in a flightcase. Furthermore the flat panel can be fastened by means of coupling bolts and it can be installed without using any tools.
